Overall Purpose of the Job

What we do

InterHealth provides whole person healthcare to individuals and organisations involved in service throughout the world.

Why we do it

InterHealth is motivated by Christian beliefs and values and by humanitarian ideals to provide compassionate and professional care without discrimination.

How we do it

We fulfill our mission by:

- Providing specialist travel and occupational health services based on evidence and good practice.
- Partnering with organisations and individuals and responding to their needs in order to maximise their well being and effectiveness.
- Promoting good healthcare practice within organisations and for individuals.
- Pursuing creative and innovative approaches to whole person healthcare.

Summary of main tasks and responsibilities

- Assisting with and organising medical audit
- Assisting with and helping to set up a new research project
- Assisting with our Geosentinel Health project run by CDC Atlanta and ISTM
- Corresponding with physicians worldwide, designing a questionnaire and logging their data as part of our Patient Journey Project
- Other areas of mutual interest associated with our Patient Journey Project
- Attending clinical meetings, doctors meetings, client meetings and staff lunches
- Attending and learning from clinical consultations
- The possibility of wider involvement with our international programmes through Community Health Global Network and Affirm Associates

Other duties

- Other tasks appropriate to the post, which may be allocated from time to time after prior discussion
- Other areas of special interest which the applicant may have and which fitted with our current aims and objectives

Committed to the health and wellbeing of those making the world a better, fairer and healthier place.
